PROGRAM OVERVIEW

The Doctorate of Business Administration (DBA) is at the highest level of Malta Qualifications Framework (MQF) and the European Qualifications Framework (EQF) Level 8. This doctorate qualification necessitates the primary focus of the candidate's work to showcase an original contribution to knowledge within their subject, field, or profession, achieved through original research or the innovative application of existing knowledge or understanding.

The DBA Programme seeks to enhance the capability of the professionals to merge rigorous academic and critical analysis with practical relevance and application. This enables them to evolve into more effective evidence-based practitioners and contribute to the advancement of their profession by expanding knowledge.

PROGRAM **OUTCOMES**

- Analyse and create new knowledge, achieved through original research or advanced scholarship, should be of a calibre that extends the existing body of knowledge within the chosen discipline and meets peer review publication standards.
- Acquire and comprehend substantial body of knowledge in a systematic manner which is at the forefront of the respective area of the professional practice.
- Transform practical knowledge to conceptualise, propose and implement a research project for the generation of new knowledge and to adjust the project in the light of unforeseen problems.
- Apply techniques for research and advanced academic enquiry.
- Recognize the significance of ethical practices in research and adhere to the highest standards of research ethics as outlined by institution's regulations and the broader academic community.

INSTITUTE OVERVIEW

About Us

European Global Institute of Innovation & Technology (EU Global), is an accredited Institution of Higher Education, founded with a vision of providing high-quality, accredited education to global learners, enhancing their employability and global mobility. Our teaching andragogy emphasises project-based learning with a focus on evidence-based reflection, enabling the application of conceptual frameworks in real-world decision making.

We truly believe in building future competencies with quality education that promotes lifelong employability globally.
